Chapter 3

Database Information

The name of the database is sifomoc. It stores the structure and data for the web app to work. The Database is a bit elaborate as it is required to store all relevant details of a college framework.

Structure for users to setup are :

- Database sifomoc
- Table students
- Table faculty
- Table subjects
- Table passwords
- Table logs

The details of each table and their contents are stated in the sections of this chapter. Read them thoroughly before manipulating or removing the content.

- 3.1 Students**
- 3.2 Faculty**
- 3.3 Subjects**
- 3.4 Password**
- 3.5 Logs**
